# ANKIT YADAV

**Web Developer | PHP | Python | JavaScript | MySQL**

+91-6394611070 | ydvankit1070@gmail.com | linkedin.com/in/ankityadav-64686136a | github.com/itzydvankit

## PROFESSIONAL SUMMARY

Aspiring Web Developer and BCA graduate with hands-on experience building responsive, database-driven web applications and REST APIs using PHP, Python, JavaScript, and MySQL. Strong foundation in data structures, DBMS, OOP, and web technologies, with projects deployed live for public access. Skilled in front-end development (HTML5, CSS3, JavaScript), server-side logic, CRUD operations, form validation, and JWT authentication with bcrypt password hashing. Eager to contribute as a developer at a world-class organization while growing in full-stack development.

## EDUCATION

**Shibli National College, Azamgarh, Uttar Pradesh, India** Jul 2023 – Jun 2026

*Bachelor of Computer Applications (BCA) — Computer Software & Media Applications* | Percentage: 75.80%

- Relevant Coursework: Data Structures, DBMS, Web Technologies, Software Engineering, OOP, Computer Networks, Operating Systems, Java Programming, Computer Organization

## TECHNICAL SKILLS

**Web Development:** HTML5, CSS3, JavaScript (ES6+), PHP, Responsive Web Design, DOM Manipulation, RESTful API Design
**Languages:** Python, PHP, JavaScript, SQL, Bash/Shell Scripting
**Backend & APIs:** PHP, RESTful APIs, CRUD Operations, JWT Authentication, bcrypt, Nodemailer (SMTP), Form & Input Validation
**Databases & Tools:** MySQL, Relational Database Design, Git/GitHub, Linux Command Line, OpenCV
**Core CS:** Data Structures, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming (OOP), Software Engineering (SDLC)

## PROJECTS

**WriteSpace — Blog Website — Web Application — Live Demo: writespace.great-site.net**

- Built and deployed a live, responsive blog web application where users can browse and read posts, accessible publicly and across desktop and mobile devices.
- Structured content pages, navigation, and user-facing flows for a smooth reading experience; hosted online with a public demo.

**Student Data Management System — Python, PHP, MySQL, SQL**

- Built a database-driven CRUD (Create, Read, Update, Delete) application to manage student records, with a Python module and a PHP backend.
- Designed a relational MySQL schema and implemented server-side input validation and data persistence to maintain data integrity.

**Human Face Detector — Python, OpenCV, Computer Vision**

- Developed a Python application that detects human faces in images and live webcam video using OpenCV, highlighting each face with bounding boxes in real time.
- Applied computer vision and image processing fundamentals, including pre-trained classifiers, for accurate real-time detection.

**Invoice Generator — HTML5, CSS3, JavaScript**

- Developed a client-side invoice generator that lets users add itemized entries, auto-calculate totals, and generate a print-ready invoice.
- Focused on clean UI design, dynamic DOM manipulation, and input validation using vanilla JavaScript.

**Personal Portfolio Website — HTML5, CSS3, JavaScript**

- Designed and developed a responsive personal portfolio website to showcase skills, projects, and resume.
- Implemented smooth navigation, interactive UI elements, and mobile-responsive design using vanilla HTML, CSS, and JavaScript.

**Tic Tac Toe Game — Python**

- Built a two-player Tic Tac Toe game in Python with turn handling, win/draw detection, and input validation.
- Applied core programming concepts (loops, conditionals, functions, lists) and problem-solving to implement the game logic.

## CERTIFICATIONS

**O Level** — NIELIT / *Result Awaited*
**CCC (Course on Computer Concepts)** — NIELIT / *Passed with B Grade, July 2023*
